

# Youth Works (aka. Roadmap)

The Youth Works project seeks to help current and former youth in care and at risk youth who feel lost and overwhelmed when thinking of their career and employment future. It is intended primarily for youth who will soon be entering adulthood and may require additional support to help guide them to a more successful future.

The Youth Works project can be delivered in a group setting or one-on-one. Eligibility criteria for the program includes youth who are between 15-29 years; youth with varying levels of education and youth who are ready/willing to engage in the program.

Youth Works staff have experience working with current and former youth in care, youth at risk, vulnerable youth and will ensure personalized support and access to employment related opportunities. Support is available to help youth gain stability (housing, physical and mental health) in order to properly prepare them for the program. Access to employment training is available and will ensure the youth are better equipped to meet the requirements for their chosen career path and employment. Youth who are identified as 'job ready' will be referred to employers for meaningful work experience. Wraparound supports can be given to all youth both before and after employment programming.
